Verse 1:

The world turned fast today
The sky looked dark and grey
No matter what I did
I had an image on my mind
Too long to leave behind
And all I need to hear is

Chorus 1:

For every day
In our short lifes
We should not fear to
Critizice
How much there is
A part to give and

For every step that we all take
It could be worth to
Recreate
That plan that we once had
In our minds
We had in our minds

Verse 2:

No news to tell today
Something got in the way
The lines are breaking down

The message fought against our pride
Too strong to put aside
And all we need to hear is

Bridge:

No need to run
No need to hide
It`s just again a test of time
It`s not the end
Maybe the glance
Took us too long

Chorus 2:

For every day in our short lifes
We should see clear to
Realize
How much there is
A part to give and
For every step
That we all take
It could be worth to
Recreate
The plan that we once had in our minds
For every day in our minds
For every day
In my life
